

DROP MULCH HERE

THANK YOU FOR YOUR MULCH ORDER

In order that we may better serve you, we ask that you assist us with the following procedures:

1. Clearly mark the spot you would like the mulch dropped. Use the back side of this sign for that purpose.
2. When considering the location for the mulch, please consider low hanging branches, electrical wires, etc. Our truck bodies rise approximately 20 feet. We need to have clear access to the drop location and be able to move forward a distance of 20 feet with the body up.
3. It is our policy to drop on hard surfaces. If you wish the mulch to be dropped on a lawn or other similar surface, please be aware that we can not be responsible for damage done to the site.
4. If, for some reason we are unable to drop the mulch and we need to return to the site a second time, there will be an additional charge of \$25 for the service.
5. Please be aware that mulch color can vary from load to load.
